

200 P.A.N.D.A.S. Cases from PandasNetwork.org

Child #	Sex	Age of Onset/ Diagnosis	Abrupt Onset?	Diagnosed Infection	Symptoms	Treatment	Resolution/Remission	Year of Onset	State
1	Boy	6-sibling	Yes	Strep & sinusitis	Ocd, coordination loss, anxiety, fears, heel walking, spinning, enuresis	Abx & steroids	Greatly improved	2006	
2	Boy	4-sibling	Yes	Strep	Ocd, anxiety, rages, sleeplessness, mood lability	Abx & steroids	Greatly improved	2007	
3	Girl	6	Yes	Strep	OCD, fears, psychosis, rituals	Abx; IVIG (2006)	Resolved	2004	AZ
4	Girl		Yes	Strep		IVIG	Greatly Improved	2009	AZ
5	Boy	8	Yes	Strep (titers)	Severe separation anxiety, sleep disturbances, insomnia, OCD, behavioral regression, aggression	Zithromax, then IVIG with abx continuing afterward	80% 13 wks post IVIG	2009	CA
6	Boy	5	Yes	Strep (pos. rapid)	OCD, mood lability, multi-generational (mother, cousins w/pandas)	short-term Abx, IVIG	Greatly improved	2008	CA
7	Boy	5- sibling	Yes	Strep, known exposure to RF; high ASO titer	Tics, OCD, separation anxiety, mood lability, sleep disturbances, anxiety	Zithromax, then IVIG (3 rounds at 1.5mg/kg 8 weeks apart)	Symptoms 99% Resolved 3 months post IVIG	2009	CA
8	Boy	2-sibling	Yes	Kawasaki-RF	OCD, mood, sleep disorder	IVIG for Kawasaki; abx	Resolved	2009	CA
9	Boy	9	Yes	Strep	Severe tics, OCD, mood lability, math deterioration	Abx, then IVIG (low-dose at Stanford)	Resolved	2009	CA
10	Boy	7	yes	strep	Hyperactivity, terrors, eye dilation, rages, autistic like behaviors	Sporadic Abx, IVIG, HBOT, chelation	Resolved	2007	CA
11	Girl	7	No	scarlet fever -age 2; Fifth's Disease	Enuresis, OCD, behavioral, separation anxiety, sleep problems, anorexia, writing deterioration,	Abx	Resolved	2010	CA
12	Girl	7.5	yes	strep exposure, fever	Separation anxiety, emotional lability, headaches, verbal and motor tics, anorexia, OCD, suicidal statements, writing deterioration, urinary frequency	Abx, IVIG twice	Greatly improved	2008	CA
13	Boy	7	Yes	Strep	Ocd, mood, anxiety, rages, chorea, eye dilation, mild seizures	Abx, IVIG	Abx - improved; 2 IVIG's - Resolved	2007	CA
14	Girl	8	Yes	Strep; re-exacerbation mycoplasma	Tics, anxorexia, anxiety, multiple sensory	Amox every 6 mos.	Repeat exacerbations	2005	CA
15	Girl	6-cousin	Yes	Strep (titers), mycoplasma	Tics, fears, bad thoughts	Abx, 3 IVIG's	Greatly improved	2008	CA
16	Boy	8-cousin	Yes	Strep	OCD, fears, rages	Abx, IVIG	Resolved	2008	CA
17	Boy	10-cousin	Yes	Strep	OCD, fears, rages	Abx, IVIG	Resolved	2008	CA
18	Girl	10-playmate	Yes	Viral Throat	Mood lability, anxiety, rages, cognitive issues, perfectionism	None	Six mos. remitted	2010	CA
19	Girl	10-playmate	Yes	Viral Throat	Mood lability, anxiety, rages, cognitive issues, perfectionism	None	Six mos. remitted	2010	CA
20	Boy	12	Yes	Strep multiple x	OCD, anxiety, rage, chorea, ADHD	Azithro; 2 IVIGs	Greatly Improved	2009	CA
21	Boy	13	Yes	Strep	OCD, anxiety, tics, rages, age regression, enuresis, fears	Abx short course & failed IVIG in 1998 (stanford)	Severe debilitating OCD	1998	CA
22	Boy	9	No	Mild fever, sore throat	Violent head shaking, tics, mood lability, mild self-harm	Azithro; pending IVIG	Improved; re-exacerbates	2008	CA

200 P.A.N.D.A.S. Cases from PandasNetwork.org

Child #	Sex	Age of Onset/ Diagnosis	Abrupt Onset?	Diagnosed Infection	Symptoms	Treatment	Resolution/Remission	Year of Onset	State
23	Girl	3	Yes	Sinus and Ear Infection	Tics, acute anxiety, fears, mood lability	Considered PID; IVIG	Greatly Improved	2007	CA
24	Boy	6	Yes	Strep	OCD, enlarged pupils, compulsions, rages, learning issues, ADHD, mood lability, anxiety	Abx short course, steroid (one time)	Improved; 6 x p/year exacerbations; lessening but no remission	1998	CA
25	Boy	5- sibling	Yes	Strep, Mycoplasma	Complex tics, rages, anxiety, compulsions	Azithro, steroids, IVIG	Resolved	2009	CA
26	Boy	5- sibling	Yes	Strep, Mycoplasma	Complex tics, rages, anxiety, compulsions	Azithro, steroids, IVIG	Improving	2009	CA
27	Boy	5	Yes	RF, Strep	OCD, mood lability, anxiety, ADHD	Azithro, IVIG	Greatly Improved	2009	CA
28	Girl	6	Yes	Strep (titers extremely high checked 2010)	Tourette-like movements	Titers were never checked until 2010	Unknown	2006	CA
29	Boy	8	Yes	Strep (titers)	Complex motor and vocal tics	unknown	unknown	2010	CA
30	Boy	6	Yes	Strep	OCD, mood lability, ADHD	Antibiotics short courses	Improving into teen years	2004	CA
31	Boy	13	Yes	Strep (titers)	OCD, mood, anxiety, rages, math & reading diminished	Abx	Mildly improved	2010	CA
32	Boy	6	Yes	Strep (titers)	Tics, ADHD, mood lability	Abx	Mildly improved	2009	CA
33	Boy	6.5	Yes	Strep (titers)	Initially just a tic that improved with antibiotics ; 2 1/2 years Exacerbation - severe tics, sleep disturbances, attention problems, mood lability, defiant behavior, slurred speech	Antibiotics intermittently when there's a flare-up; clonidine	Reduction in severity of neck tic	2006	CO
34	Girl	5	Yes	Skin infections; otitis media	OCD, sleep disturbances, ADHD, fears, mood lability, imaginings	Abx, IVIG pending	Improved	2008	CO
35	Girl	5	Yes	Fever, sore throat, coxsackie virus?	OCD, acute anxiety, bedwetting, mood lability	Azithro, IVIG	Resolved	2009	CO
36	Girl	7	Yes	Repeat sinus & throat infections; docs won't swab	Complex tics, leg pain, adventitious movements	Omnicef (July 2010)	unknown	2010	CO
37	Boy	5	Yes	Strep (culture)	Tics, OCD, mood lability, separation anxiety, sleep disturbance	Abx; phoresus	Greatly improved	2009	CT
38	Boy	10	yes	strep	Tics, OCD, separation anxiety, mood lability, sleep disturbances, anxiety, Adhd	Abx, IVIG twice,	much improved	2007	CT
39	Girl	17	Yes	Sore throat, boyfriend had strep	Age 5 after vaccines displayed OCD; exposed to strep 17 yrs.	Abx	Improved	2010	CT
40	Boy	9	Strep	Strep (titers); mother is carrier	Tics, anxiety	Biaxin Abx, Steroids (2010)	Improved	2008	CT
41	Girl	5	Yes	Many ear & sinus infections	Ocd, hyperactivity	Amox	Improved	2010	CT
42	Girl	4	No	Flu-like & fever, torso rash, sore throat, Lyme	Repeact cough, grows to snorting, tongue clicking, smelling hands, fears, mood lability	Abx, IVIG	Greatly improved	2010	CT
43	Girl	10	Yes	Scarlet Fever, Lyme	OCD, anxiety, tics, rages	Abx, IVIG	Greatly improved	2009	CT
44	Girl	6	Yes	Strep	Hallucinations, OCD	unknown	Unknown	2010	CT
45	Boy	13	Yes	Strep	OCD, tics, anxiety, depression	Abx, IVIG	Unknown	2010	CT

200 P.A.N.D.A.S. Cases from PandasNetwork.org

Child #	Sex	Age of Onset/ Diagnosis	Abrupt Onset?	Diagnosed Infection	Symptoms	Treatment	Resolution/Remission	Year of Onset	State
46	Boy	9	Yes	Strep	OCD, rages, mood, ADHD, fears	PEX and IVIG	Resolved	2009	DC
47	Girl	8	Yes	Strep & Lyme	Tics (since preschool years), mood, rages, hyperactivity,	Abx, IVIG	Greatly improved	2009	DC
48	Girl	5-sibling	Yes	Strep	OCD, severe anxiety, mood lability	Azithro, Steroids, PEX	Greatly Improved	2010	DC
49	Girl	9-sibling	Yes	Strep	OCD, anxiety, stomach issues, withdrawal, mood lability	Azithro, Steroids, PEX	Greatly Improved	2010	DC
50	Girl	6	Yes	Strep	Chorea, tics, ADHD, anxiety	Augmentin daily	Greatly improved	2009	DE
51	Boy	6	Yes	Strep; mycoplasma	OCD, enuresis, school refusal, complex tics, anxiety, rages, ADHD	Biaxin, Steroids	Greatly improved	2002	East US
52	Boy	9	yes	strep, ear infections	Tics, cognitive confusion, urinary frequency, separation anxiety, OCD,	Abx, IVIG	much improved	2008	FL
53	Girl	10	Yes	Foot infection Staph , sinus infection, Celiac's	Ocd thoughts, fears, tics	Abx, 2 IVIG's	Resolved	2006	FL
54	Boy	6	Yes	Strep	Mild OCD, perfectionistic, multiple motor tics	Abx short course	Improved	2009	FL
55	Girl	7-sibling	Yes	Lyme, Strep	OCD	Unknown	uncertain	2006	GA
56	Boy	8-sibling	Yes	Strep	OCD	Unknown	uncertain	2009	GA
57	Boy	5	Yes	Strep (titers)	Severe OCD, anxiety, fears	Nothing	Currently ill (July 2010)	2010	GA
58	Boy	10	Yes	Strep recurrent; Celiac's newly diagnosed	OCD, Sleep disturbances, tics, mood lability, leg pains	None; 2009 Antibiotics	Improved; re-exacerbates	2006	GA
59	Girl	5	Yes	Onset following Immunizations	OCD, tics, fine motor problems	IVIG (3 years post onset), Amoxicillan then switched to Azithromycin	Tics and other symptoms fully Resolved 4 months post IVIG	2006	IL
60	Girl	7	Yes	Staphylococcus Aureaus	OCD, anxiety	Zoloft	Ocd improved	2004	IL
61	Boy	7	Yes	strep	OCD, separation anxiety, rages	antibiotics, IVIG	Resolved after IVIG	2005	IL
62	Boy	4	Unknwn	Unknown	Tics, anxiety	Abx, IVIG	Improved	2010	IL
63	Boy	6	Yes	Strep	OCD, anxiety	Amox	Improved	2008	IL
64	Boy	3	Yes	Strep (titers)	Severe stuttering, unable to verbalize, aggressive	Unknown	Unknown	2010	IL
65	Boy	8	Yes	Unclear strep; mildly raised titers	Panic attacks, tics, sleep disturbances	Keflex	90% improved	2009	IN
66	Girl	6	Yes	Strep	OCD, mood, anxiety, psychosis	Antibiotics short course	Mild improvement	2010	IO
67	Boy	7	Yes	Strep (titers)	OCD, tics, enuresis, math and reading skills, corporlelia, disinhibition	Amox, (3) IVIG (2010) - too high! 2G/1kg April, May, June	Improved w/abx; IVIG (2010) improved but not Resolved	2007	ITALY
68	Boy	9	Yes	Strep	OCD, suicidal, violent, ADHD, rages	Abx, IVIG	Resolved	2009	KS
69	Boy	9	Yes	Strep (titers)	OCD, painful full body tics, focus issues, learning regression, anxiety	Abx (pending IVIG), anti-anxiety med	Improved, re-exacerbating	2009	KS
70	Boy	5	Yes	Strep 2004; H1N1 and ear infection (2008)	OCD and mood issues have escalated: complex tics, rages, anxiety, mood issues	Proph abx -short course	Improved until 2008; seeking IVIG	2004	KY
71	Boy	11	yes	Strep titers	OCD, seperation anxiety, mood, chorea, tics	Abx, CBT,	Resolved with ABX, re-excerbated on 1/10	2008	MA

200 P.A.N.D.A.S. Cases from PandasNetwork.org

Child #	Sex	Age of Onset/ Diagnosis	Abrupt Onset?	Diagnosed Infection	Symptoms	Treatment	Resolution/Remission	Year of Onset	State
72	Boy	4	Yes	Ear Infections; impetigo	OCD, tics, anxiety, enuresis, disinhibition	Unknown (realized pandas correlation 5/10)	unknown	2005	MA
73	Boy	9	Yes	Strep (very high Anti- Dnase B)	Tics, OCD, anxiety ADHD, mood lability	IVIG	Improved	2010	MI
74	Boy	7	Yes	Strep (rapid test); child has frequent strep infections	Tics, hyperactivity, ???	Tenex; 6-day methylprednisolone pack (12-27-08 and 1-6- 09); daily Azithromycin after steroid courses	Tenex increased tics; 80 - 90% reduction in symptoms with steroid courses; reduction in tics on Azithromycin (last update 1/09)	2008	MI
75	Boy	7	yes	strep	Trichotillomania, OCD, rages, anorexia, separation anxiety, tics	Abx, IVIG	85% Resolved after IVIG, continues Abx	2005	MI
76	Girl	7	yes	HSV, strep	Mood lability, eating disorder, rages, OCD, sleep problems	Abx, IVIG	Resolved completely	2007	MI
77	Boy	11	yes	rheumatic fever	High fevers, migrator polyarthritits, chorea, arthralgia, tics, sleep problems, OCD, anxiety, anorexia,	High dose ABX, 3-IVIG treatments	90% rcovered, remains on High dose Augmentin	2007	MI
78	Boy	4	Yes	Strep (titers)	Mild tics and mood; explosion at age 8 with strep	Abx	Improved	2010	MI
79	Boy	14	Yes	Strep (titers)	Tics vocal & motor, anxiety	Abx, Steroids, IVIG	Unknown	2009	MI
80	Boy	5	Yes	History of strep; multiple URI & otitis;	OCD, perfectionism, ADHD, eye dilation, rages, anxiety, blinking, arm tic	Abx, IVIG in 2010	Greatly improved	2005	MI
81	Girl	16	Yes	URI, sinus infection	Coughing continuously, acute anxiety, age regression	Unknown	Unknown	2010	MI
82	Boy	5	Yes	Strep	Tics, ADHD, mood lability	Amox; pending IVIG	Improved; re-exacerbates	2010	MI
83	Girl	12	Yes	Strep	OCD, anxiety, hours of screaming	Unknown	Unknown	2010	MI
84	Girl	9	Yes	Strep (not clear on 2010 exacerbation trigger)	OCD, anxiety (Swedo IVIG study)	Proph abx, PEX	PEX complete resolution; minor exacerbations until 2010- age 24 major OCD episode	1998	MI
85	Boy	7.5	Yes	Unknown bacterial	OCD, anorexia, eye dilation, mood, fears, enuresis, neuro problems,	Short-term Amox & Azithro	Improved but proph not approved; child has lost speech & learning capability	2007	MN
86	Boy	9	Yes	Strep, severe tooth decay	Enruesis, anxiety, OCD, rages, withdrawal	Abx, steroids, Pex, IVIG	Improved	2009	MN
87	Boy	10	Yes	Strep; repeat episodes	OCD, rages, knuckle popping, sleeplessness, school refusal, defiance	Clyndamycin; possible IVIG	80% improved	2007	MO
88	Girl	10.5	9 days later	Strep	OCD, anorexia, chorea, vocal tics, suicidal	low dose penicillin, Plasmapheresis, antidepressants, antipsychotics, SSRI, anti- anxiety meds	no change after Plasmapheresis. Change occurred after SSRI started, weaned off SSRI which produced a resolution. remained on penicillin until age 15	2001	MO
89	Boy	9	Yes	Strep (titers)	Fears, anxiety, age regression, enuresis,	Short-term Keflex; 2 exacerbations	Greatly improved	2009	MO

200 P.A.N.D.A.S. Cases from PandasNetwork.org

Child #	Sex	Age of Onset/ Diagnosis	Abrupt Onset?	Diagnosed Infection	Symptoms	Treatment	Resolution/Remission	Year of Onset	State
90	Girl	9	Yes	Strep re-triggered with allergies in 2010	OCD, fears, bad thoughts	Abx, T&A (2008)	Greatly Improved; Regression 2010	2008	MO
91	Boy	4	Yes	Strep	OCD, mood lability, rages - increasing over last few years	Proph. abx since age 4; stopped working; IVIG 7/10	Lessened in effectiveness; pending IVIG	2003	MO
92	Boy	4	Yes	Strep (titers)	OCD, severe anxiety, writing deterioration, mood lability, enuresis, sleep disturbances	Abx, IVIG (2010)	Greatly Improved	1999	NC
93	Boy	8	Yes	Not tested for strep	OCD, mood lability, severe tics	Several courses of antibiotics over 3 months after onset	Symptoms almost completely resolve after 3 months	2009	NC
94	Girl	16 mo.	Yes	Strep	Hair pulling, ADHD, separation anxiety, general anxiety, sleep disturbances, enuresis, oppositional/defiant	Penicillin as of 1/09	Has slowly improved, but still ADHD as of 5/09	2004	NC
