

Letter Requesting Notification of Strep Exposure from Classmates

Dear Parents of _____ Graders,

As you may already be aware, it is school policy to report the type of sickness that your child has when he/she is out with an illness. Thank you to those of you who already do this consistently.

The purpose of this letter to request that everyone do this, especially if your child, or anyone else in your family has strep throat. There is a student at our school who has a severe and profound negative reaction if he comes in contact with strep. It is important for his family to know if he has come into contact with anyone who may have been exposed to strep throat.

If this occurs, simply let _____ know as soon as you become aware and she will alert the family.

Thank you so much for helping us keep our wonderful school as healthy as possible.

Sincerely,
